WORK EXPERIENCE

Voluntary assisted Dying Implementation Team |

Ministry of Health (Office of the Chief Medical Officer) and Hunter New
England Health District | *Jan 2023-March 2024*

- Development and review of local and state based guidelines and policy
- Led educational program of general awareness training
- Review and development of mandatory training modules
- Development of communication strategies and staff needs analysis
- Deputy chair NSW Clinical Advisory Group.

End of Life Care Nurse Practitioner | *August 2015 – Present*

John Hunter Hospital | New Lambton, Newcastle

Provide comprehensive holistic End-of-Life care to patients whose death may be expected at John Hunter Hospital.

Key Achievements:

- Development, implementation and embedding a new palliative and end of life model of care into a tertiary hospital
- Provision of compassionate patient and family-centered care
- Expert complex communications between consumers and health care teams in a highly emotive environment
- Impeccable and comprehensive holistic health care planning, including use of assessment skills, diagnostic tools, and clinical indicators to inform clinical decision making
- Critical evaluation of research and evidence to inform decision-making regarding patient health management and appropriate interventions
- Advocacy for patient goal setting and translation of wishes to a comprehensive care plan
- Provision of bereavement counselling and grief support to bereft relatives and friends.
- Participation in research and quality projects identified at improving end of life care provision
- Evidence based practice, education and support to all staff working in the John Hunter Hospital regarding deteriorating patients and end of life care
- Enabling a cultural shift to empower doctors and nurses to develop a systematic approach to the provision of excellence in end-of-life and palliative care.
- Role modelling and Clinical Leadership
- Presentations at local and National Conferences
